Mechanisms of Morality: Sources of Support for Humanitarian Intervention

Sarah Kreps and Sarah Maxey
March 2017

Replication Instructions

The files in this folder contain replication data for "Mechanisms of Morality: Sources of Support for Humanitarian Intervention" and the online appendix. The files include:

1. ReplicationFile1.do: code to replicate the results from the manuscript.

2. ReplicationFile2.do: code to replicate the results from the appendix.

3. Codebook: description of all variables included in the manuscript and appendix.

4. ExperimentOne.dta: replication dataset for results in the manuscript and appendix from Experiment One.

5. ExperimentTwo.dta: replication dataset for results in the manuscript and appendix from Experiment Two.

6. ExperimentThree.dta: replication dataset for results in the manuscript and appendix from Experiment One.

7. ExperimentFollowUps.dta: replication dataset for results in the manuscript and appendix from the strategic rationale and perceptions of threat follow-up experiments.

8. ACMEPlot.dta: spreadsheet of point estimates and confidence intervals produced by the mediation analysis and used to plot the average causal mediation effect in the appendix.

If you have questions or encounter problems running the code or replicating the results, please let us know.
